ADVANCED STRATEGIES

1. Keyword Bid Adjustments by Placement

Placement	Bid Adjustment	Reason
Top of Search	+25-50%	Highest conversion rate
Product Pages	+0-15%	Good for ASIN targeting
Rest of Search	Default bid	Discovery/testing

2. Day-Parting Strategy

- Increase bids: Friday evening through Sunday (parents browse/buy on weekends)
 - Increase bids: 8pm-11pm weeknights (after kids' bedtime, parents shop)
 - Decrease bids: Monday-Thursday 9am-5pm (lower intent for children's books)
-

3. Cross-Promotion Between Books

Once both books are live, use each book's ads to promote the other:

- Add Book #2 ASIN as a target in Book #1 campaigns (readers of one want the other)
 - Use Sponsored Brands to show both books together
 - Include "Customers also bought" strategy by targeting your own ASINs
-

4. Review Velocity Strategy

- Week 1-2: Lower ACoS target (accept higher spend) to drive initial sales
 - Ask for reviews via KDP's "Request a Review" button after delivery
 - Milestone: 10+ reviews unlocks better ad performance (social proof)
 - Milestone: 25+ reviews significantly improves conversion rate
 - Target: 50+ reviews within 90 days for category authority
-
