- Always have text on screen (accessibility + keeps attention)
- Add "Link in bio Etsy" in caption
- Use hashtags: #ADHD #ADHTikTok #ADHDbudget #neurodivergent #etsyshop #printables

Etsy Ads Strategy

Phase 1 (Days 1-14): \$1-2/day on Product #1 only. Gather data.

Phase 2 (Days 15-30): \$2-3/day. Add Product #2 if #1 performing. Pause underperformers.

Phase 3 (Days 31-60): \$3-5/day. Scale winners. Target ROAS of 2x minimum.

Phase 4 (Days 61-90): \$5-10/day. Focus budget on top 3 performing listings only.

When to PAUSE Etsy Ads on a listing:

- 100+ clicks with 0 sales fix listing (images, price, or description issue)
- ROAS below 1.5x after 30 days not profitable enough
- Cost per sale exceeds 40% of product price margin too thin

When to INCREASE Etsy Ads:

- ROAS above 3x scale aggressively
- Consistent daily sales more spend = more sales (linear relationship for Etsy)
- Holiday season approaching (Nov-Jan) increase budget 2-3x
