PROCRASTINATION BUSTER

You're procrastinating. That's okay. Try these:

- 'Just 5 minutes' rule - set timer, start, stop if you want
- Body doubling - study with someone (even on video call)
- Change location (library, cafe, different room)
- Break it smaller (what's the TINIEST first step?)
- Bribe yourself (finish 1 section = 10 min phone break)
- 'Future me will hate present me' visualization

What I'll try right now: _____
